Privacy Policy

Last Updated: July 1, 2026

The protection of your personal data is a major concern for us. Below, we inform you about how we handle your data when you use **ACE Launcher** and its extensions (collectively, the "App").

1. Types of Processed Data and Purpose

a) Device Permissions and Local Processing

As a core application for managing your Android user interface, ACE Launcher requires access to certain functions of your device to enable display and organization:

- **Installed Apps:** Required to display and organize your apps on the home screen and in the app drawer.
- **Notifications (optional):** If enabled, required to display notification badges on app icons.
- **Storage Access / Wallpapers (optional):** Required to set custom wallpapers or back up your configurations.

b) Automatically Collected and Online Processed Data (Usage Data & Analytics)

The app does not operate entirely locally. To provide certain online functionalities of the extensions, improve stability, and troubleshoot errors, data is transmitted to servers. This includes pseudonymized technical data (e.g., via analytics services like Google Firebase Crashlytics):

- Device model, operating system version, and technical specifications.
- Log data in the event of an app crash (Crash Reports) to locate the error.
- Usage statistics regarding the features of the app and its extensions to continuously improve the user experience.

The legal basis for this processing is our legitimate interest in ensuring app stability, security, and continuous optimization in accordance with Art. 6 Abs. 1 lit. f GDPR.

2. Sharing Data with Third Parties

Since no in-app purchases are integrated into the app, no transaction data is shared. Technical data is transferred exclusively to service providers for app analysis and stability monitoring (e.g., Google LLC), if integrated. No personal data is shared with third parties or ad networks for advertising purposes.

3. Your Rights

Regarding the processed data, you have the following rights under the GDPR:

- Right of access (Art. 15 GDPR)
- Right to rectification or erasure (Art. 16 & 17 GDPR)
- Right to restriction of processing (Art. 18 GDPR)
- Right to data portability (Art. 20 GDPR)
- Right to object to processing (Art. 21 GDPR)

However, since we generally do not store directly identifiable personal data (such as names or email addresses) on servers, we are typically unable to assign pseudonymous data to a specific user.

4. Changes to this Privacy Policy

We reserve the right to adapt this Privacy Policy so that it always complies with current legal requirements or to implement changes to our features. The new Privacy Policy will then apply to your next visit.
